Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention (**there are two groups of species from which applicant must elect**):

GROUP I (which are patentably distinct species of the claimed prestressed foam glass tile and assembly): Figure 1; Figure 2; Figures 3A and 3B; Figures 4A and 4B; Figures 5A and 5B; and Figure 6; and

GROUP II (which are patentably distinct species of the claimed tension member(s)): bolt(s); wire(s); carbon fiber(s); standard/compact seven-wire prestressing strand(s); rod(s)/bar(s); angle iron(s); and plate(s).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species from each of the two groups of the claimed invention for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, independent claim 1 appears to be generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims

are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

A telephone call was made to Attorney Charles Macedo on February 28, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gay Ann Spahn whose telephone number is (703)-605-1203. The examiner can normally be reached on Monday through Thursday, 8:30 am to 7:00 pm.
